Ohio-Based Petrochemical Company Joins Growing List of Indeck's Repeat Rental Customers

Wheeling, IL ... Throughout the month of April, Indeck supplied temporary steam to one of the largest suppliers of acetone and phenol in North and South America. The prominent petrochemical company needed temporary steam while their on-site boiler underwent its annual inspection and maintenance procedures.

The supplemental steam requirements for the facility were 75,000 PPH 450° PSIG saturated steam. This spring marks the second consecutive year the Ohio-based facility has rented a temporary steam package from Indeck during their scheduled equipment shutdown –making them one of Indeck's newest repeat customers.

The steam provided by Indeck allowed the petrochemical facility to continue to produce phenol, acetone, alpha methylstyrene and other compounds during their planned outage. Indeck's steam, in turn, allowed the Ohio-based facility to continue to supply their chemical compounds to manufacturers throughout the US who utilize these substances in the production of polycarbonates, paints and coatings, specialized resins, non-reactive solvents, and styrenic polymers.

In addition to clients in the petrochemical industry, Indeck's rental solutions have supplied temporary steam to the oil refining, pulp and paper, food processing, healthcare, higher education, textile, utility, and pharmaceutical industries.

To learn more about Indeck's rental packages and temporary steam solutions, visit www.indeck.com/boiler_rentals.htm. Discover more by visiting www.indeck.com or calling 800.446.3325. Combustion controls and OEM parts are also available.

About Indeck: Indeck Power Equipment Company is the largest single-source provider of steam power and hot water generation solutions. Indeck is engaged in the design, manufacturing and marketing (purchase, lease or rental) of high-quality steam generation systems. Managing the largest fleet of boilers in the world, Indeck proudly carries watertube boiler trailers, mobile boiler rooms, packaged boilers up to 250,000 PPH, superheat boilers, saturated boilers, high-temperature hot water generators, deaerators, feedwater pumps, blowdown tanks, valves, controls, hot water systems, and more.

Indeck also custom designs Heat Recovery Steam Generators (HRSG)s, waste heat boilers, Fluidized Catalytic Cracker Units (FCCU)s, solid fuel boilers and specialty boilers up to 1,000,000 PPH and 2,000 PSIG. Indeck is an OEM aftermarket parts supplier for Indeck, Indeck Keystone Energy, Erie City Iron Works, Zurn Energy Division, Keystone Energy, Aalborg Land Based Boilers, IBC, International Boiler Works, ThermoFlo, Travagrate, Starfire and Volcano Boiler. Indeck's trusted boiler styles include "A", "O", "D", Modular "D" type boilers and Lamont High-Temperature Hot Water Generators. Indeck maintains a dedicated 24/7 emergency hotline for rental boilers, used
