Ameritek to Represent the Indeck Companies in Québec Province

Wheeling, Illinois... The Indeck Group of Companies are pleased to announce that Ameritek will represent Indeck in Québec, Canada. French Canadian manufacturers, refineries and processors will now have a regional contact to expedite their boiler requirements. Indeck's manufacturing and distribution capabilities include rental and stock boilers to 300,000 PPH or custom boilers to 1,000,000 PPH.

Michael Kessler, Indeck Marketing and Business Development Manager remarked, "Québec is very important to Indeck and our partnership with Ameritek is a good fit for continuing to develop and offer high quality boiler products and rental boilers in Canada. We are delighted to have Ameritek join the Indeck team. Indeck has a well established Canadian presence with our St. Hyacinthe, Québec manufacturing plant, formerly the Volcano Boiler plant." Indeck's historical roots include over 150 years of quality designs by Erie City Iron Works, Zurn Energy Div., Keystone, Aalborg, and Erie Power Steam Generators in addition to Volcano Boiler.

Ameritek is conveniently located near Montreal in Saint-Lambert, Québec. For information on boiler rental or purchase, contact Ameritek at 450-904-1222 or ventes@ameritek.ca. For news and offering updates see ameritek.ca. Indeck Power Equipment Company corporate headquarters are just north of Chicago in Wheeling, Illinois and handles stock equipment and rentals. The manufacturing sister company of Indeck Power is Indeck Boiler Company located in St. Hyacinthe, Québec and engineering and custom designs available through Indeck Keystone Energy, LLC in Erie, Pennsylvania. Additional information can be obtained at www.indeck.com or via telephone at 847-541-8300.

Ameritek's mission is to provide its customers with first class custom made engineered products and technical solutions in the following industrial markets:

- Energy & Waste Heat Recovery
- Air Pollution Control & Gas Handling
