

FOR IMMEDIATE RELEASE

## The Indeck Group of Companies Exhibit at Electric Power Expo Indeck Introduces Program to Help Plants Meet Boiler MACT

Wheeling, Illinois... The Indeck Group of Companies will be exhibiting at Electric Power Expo April 1-3, 2014 at the New Orleans Morial Convention Center. [Indeck](http://www.indeck.com) has been a leader in providing power steam generation equipment to power plants, refineries, steel mills, processing plants, pulp and paper industry, food processors and utilities nationwide. Indeck is available to assist with engineering studies for Industrial Boiler MACT compliance. Indeck [engineers](#) will be available at booth #334 for preliminary consultations.

Indeck engineers are experienced with the design and manufacture of boilers burning oil, gas, coal, biomass or other types of solid fuels. The engineering team has also developed low NOx boilers and proprietary SCR (Selective Catalytic Reduction) equipment meeting US EPA Clean Air Standards. Indeck technical experts can help plants meet MACT compliance requirements and provide consultations to:

- Assess how the new rules apply to boilers;
- Identify emissions currently emitting to evaluate possible compliance to the new limits;
- Advise whether equipment replacement, retrofits or alternative technology would be the best solution for a facility's successful compliance;
- Develop a recommendation to assist compliance and/or show "good faith" to the EPA to help avoid risk of loss of extension.

The Indeck Group of Companies has a history of engineering and producing steam solutions since 1840. Indeck is proud to be manufacturing the most robust industrial boilers in the industry. [Indeck Keystone Energy](#) LLC designs and builds boilers to burn virtually any fuel to produce steam efficiently, safely and reliably. Indeck Power Equipment Company, has the largest stock of boilers in the world up to 250,000pph available for immediate shipment on a lease/rental or sale, supplies auxiliary equipment and rental boilers to utilities, chemical processing, refineries and power plant owners. Indeck also custom designs and manufactures watertube boilers, solid fuel boilers, waste heat recovery boilers, thermal oxidizers, biomass boilers, high temperature hot water generators, and specialty boilers to 1,000,000 pph.

Indeck is the home to many of the most trusted boiler designs ever built including Indeck Boiler, Volcano, Erie City, Zurn Energy, Aalborg land-based boilers, Starfire and International Boiler Works. Manufactured styles include "A", "O", "D", Modular "D" type boilers along with the International LaMont® line of High Temperature Hot Water Generators and Travagrate® Stoker. Indeck has the largest inventory of boilers for sale, lease or [rent](#), and for additional information see [www.indeck.com](http://www.indeck.com) or email [info@indeck-power.com](mailto:info@indeck-power.com) or [info@indeck-keystone.com](mailto:info@indeck-keystone.com). Indeck maintains a dedicated 24/7 emergency hotline for service, rental boilers, used boilers, or new boilers at **800-446-3325** to get plants up and running quickly.
